Executive Director, UNITAR

Sports for Climate Action

Course Goals and Outline

Sports for Climate Action is an advanced self-paced online course that offers an in-depth exploration of practical strategies for integrating climate considerations into the operations, business models, and advocacy efforts of sports organizations.

By the end of the course, participants will be able to:

- Describe the interlinkages between sports and climate change.
- Identify strategies to reduce emissions, adapt, engage and advocate for climate action through the power of sports.
- Identify entry points for integrating climate change into business strategy and financial planning in sports.
- Demonstrate the importance of partnerships and collaboration with different stakeholders to drive climate action in sports.
- Present examples of climate action and engagement in sports and the importance of communication.
- Discuss the importance of transparency and accountability and the relevance of climate action in sports to promote climate solidarity.

The modules of the e-course are:

1. Winning the Climate Game – Mitigation and Adaptation in Sports
2. The Game Plan for Green Sports
3. Teaming Up for Climate Action – Sustainable Supply Chains
4. Leveraging the Sports Platform – Engagement and Impact
5. Keeping Track and Moving Forward

The estimated learning time is 4 hours.

Completion Requirements

The Certificate is awarded to participants who go through all the lessons and pass the final assessment scoring 70% or higher within three attempts.
